

# Kakome Kakome

## Puzzle

### Rules and Instructions:

1. Enclose adjacent cells (horizontally or vertically) using the numbers in the cells.
  2. The sum of the numbers in the enclosed cells must equal 10.
  3. A group can consist of any number of cells as long as their sum equals 10.
  4. Each cell can belong to only one group. In other words, no cell can be counted in more than one group.
  5. The puzzle is complete when all cells have been enclosed in groups that satisfy the above conditions.
- Follow these rules to enclose all the cells and solve the puzzle.
